

# How can **Provider Eligibility Monitoring** Help Payers?

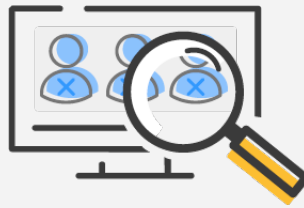

Secure and seamless integrations set ProviderTrust apart. Our clients love that our provider eligibility monitoring solution plugs into any existing workflow, allowing you to solve your most pressing business needs faster.

Here are the **top 5 ways** payers improve operations and realize value with provider eligibility monitoring:

**1. Improve** provider enrollment screening

**2. Screen a new provider network**

**3. Streamline** credentialing and recredentialing

**4. Identify ineligible claims prepayment**

**5. Power payment integrity investigations**

Our proprietary combination of data enrichment and sophisticated monitoring science can solve a variety of operational and compliance challenges for payers. We will clean, update, and enhance the data you have about your provider networks and apply seamless integrations to deliver the insights every team needs.
